BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IN THE MATTER OF THE APPLICATION) CASE NO. CAP-W-15-01
OF CAPITOL WATER CORP. TO)
CHANGE ITS SCHEDULE NO. 3) APPLICATION
PURCHASED POWER ADJUSTMENT RATE)

COMES NOW Capitol Water Corporation (“Capitol”, “Applicant” or “Company”), holder of Certificate of Convenience and Necessity Number 239, and files this Application to change its Schedule No. 3 Purchased Power Cost Adjustment rate to recover the Company’s cost of electricity related to Idaho Power Company’s electric rate schedules that have been approved by the Idaho Public Utilities Commission (“IPUC” or Commission).

Subsequent to Applicant’s last case (CAP-W-14-01) Idaho Power Company has been granted changes in its rates and charges that affect Applicant’s cost of electric power. Applicant requests that the Commission take official notice of Idaho Power Company rates and charges currently in effect and on file with the Commission.

Applicant’s current base rates were established by Order No. 30762 in Case No. CAP-W-08-02. In that order the Commission adopted a three (3) year average of 1,454,401 KWh of electricity consumption at an average cost of 5.19¢ to establish rates for Applicant. Together these produce a total cost of electric power for Applicant of \$75,483.41. Recalculating Applicants average cost per KWh at Idaho Power Company’s current rates produces an average cost of 7.02¢ per KWh.

The average cost per KWh at current Idaho Power Company rates, when applied to the Commission approved average use, produces an annual cost for electric power of

\$102,108. This is an increase in annual electric power cost of \$26,625 or 35.3% more than included in Applicants base water rates.

Applicant expects its costs to review the Idaho Power Company cases, determine their effect on Applicant, prepare and file this application and respond to questions regarding the Application to be \$1,100. Applicant proposes to include these costs together with the electric power costs for recovery by replacing the Company's currently approved Schedule No.3 Purchased Power Cost Adjustment of 4.46% with a new Purchased Power Cost Adjustment of 4.25 %. This proposed rate incorporates current Idaho Power Company rates and Applicant's cost of processing this Application.

Enclosed is one page Exhibit No. 1 that presents Applicant's calculations at Idaho Power Company's currently approved rates. Also enclosed is one page Exhibit No.2 that is a copy of the Company's current approved Schedule No. 3 in legislative format that shows the proposed change to the Purchased Power Cost Adjustment.

A new Schedule No. 3, with the proposed power cost adjustment rate, is enclosed for the Commission's approval with an effective date of September 1, 2015.

Applicant has provided work papers showing its calculations that develop the proposed power cost adjustment to the Commission's Staff for its review.

Applicant requests that the Commission process this Application under its rules of modified procedure and approve the rates effective September 1, 2015

Capitol Water Corporation will inform its customers of this application through a customer notice that will be included with customer bills to be mailed July 1, 2015 and by a news release that is being sent to the Idaho Statesman and the Idaho Business Review newspapers coincident with this filing. Copies of the customer notice and news release are enclosed as Exhibit Nos. 3 and 4 respectively.
